Re: Subsurface Utility Exploration Project  
Harrisburg - WSSS - Gas Mains  
Harrisburg, SD

March 8, 2022

To Whom it May Concern:

Subsurface Utility Exploration, Inc. is pleased to provide the following proposal for the above-mentioned project. This proposal is based on the project plans and notes provided by Banner and represents 2 utility locations.

The specific scope included in this project includes the following:

1. Provide geophysical locations and verifications of all proposed utility conflicts.
2. Perform non-destructive vacuum excavation of 2 utility locations.
3. Provide test hole log data sheets identifying utility information.
4. Coordinate test hole information with Banner survey department.
5. Backfill / Patching of all utility location sites as required by the City of Harrisburg.

<b>I. Labor</b>	<u>Estimated Hours</u>	<u>Rate / Hour</u>	<u>Subtotal</u>
A. Equipment Operator I	8	\$75.00	\$600.00
B. Equipment Operator II	8	\$55.00	\$440.00
<b>II. Equipment</b>			
A. Vacuum Excavation Machine	4	\$210.00	\$840.00
B. Pneumatic Breaker w/ Air Compressor	1	\$50.00	\$50.00
C. Pneumatic Tamper w/ Air Compressor	1	\$50.00	\$50.00
<b>III. Direct Expenses</b>	<u>Estimated Costs</u>		<u>Subtotal</u>
A. Backfill Material	\$100.00		\$100.00
<b>TOTAL PROPOSED FEE</b>			<b>\$2,080.00</b>

This proposal fee is based on the estimated time required to perform the scope of work described. The final fee will be based on the actual hours required to perform the work but will not exceed the total amount proposed unless this scope of work has been altered.

This proposal is based on the following assumptions:

1. Approximate locations of utilities to be located will be designated by respective owners.
2. Reasonable access and depth are attainable with existing equipment specified in proposal.
3. Vacuum excavation procedures assumes the following will not be encountered or required:
  - a. Casing to support collapsing soils.
  - b. Pumping to control groundwater infiltration.
  - c. Flowable (lean concrete) fills.
  - d. Large cobble or boulders.
  - e. Contaminated Soils.
  - f. Frozen soil.
  - g. Unexpected or extreme wet conditions.
- 4. Banner will stake test hole locations prior to locating operations.**
- 5. Banner will perform survey of test hole locations.**

Thank you for the opportunity to prepare this proposal for your office. If there are any questions or additional information required, please contact myself at 605-351-5139 or [brent@suexplore.com](mailto:brent@suexplore.com) or Bob Weatherford at 605-321-9429 or [bob@suexplore.com](mailto:bob@suexplore.com).

Sincerely,

Subsurface Utility Exploration, Inc.
